Double \$92.00

2017 SPRING TRAINING CONFERENCE RUIDOSO, NEW MEXICO

APRIL 30TH TO MAY 2ND, 2017
COURSE DESCRIPTIONS

May 1, 2017 Courses Day 1

2015 IBC Means of Egress: (Full Day .6 ICC CEU)

This course addresses numerous provisions in the 2015 International Building Code® (IBC®) where the code contains requirements pertaining to establishing a means of egress in buildings. Readers will be presented with specific problems related to means of egress and will be asked to solve each case study. The course is intended to help plan reviewer or building code officials responsible for plan review identify those areas where plan review will include compliance with the IBC. During this training, participants will be listening to lecture and viewing examples, as well as discussing sections of the IBC that pertain to plan review of a commercial building. They will participate in activities that involve a set of plans. Upon completion of this course you will be able to: **Instructor Terrel Stripling**

- List and describe each of the three parts of a means of egress.
- Identify the eight fundamental means of egress design issues.
- Calculate the occupant load and determine the required means of egress capacity.

2015 IFC Transition from the 2009:(Full Day .6 ICC CEU)

This seminar will assist participants in implementing the transition from the 2009 IFC to the 2015 IFC. It will include relevant changes in the 2012 IFC. This interactive training will focus on the key changes presented in the participant material. Small group activities and knowledge review questions will provide many opportunities for participants to discuss and consider the changes. The information presented will allow for the application of these code requirements to the design, plan review, and/or inspection functions. Upon completion of the course you will be able to: **Instructor John Swanson**

- Identify the most significant differences between the 2009 IFC, 2012 IFC, and the 2015 IFC.
- Explain the differences between the current and previous editions.
- Identify changes in organization and code requirements.
- Identify the applicability of design, plan review and inspection requirements

May 2, 2017 Courses Day 2

Morning Session

2012 UMC Code: Instructor JT Baca

Afternoon Session

2012 UPC Code: Instructor JT Baca

Morning Session

Presentation by SMART 8:00 a.m. to 10:00 p.m.
